# ZEBRA PRINTER LABEL SAMPLES (Non UFC or UFC Indicators)

All of the labels on this page are programmed and stored in the printer.
Labels showing Gross, Net & Tare are output from an indicator with this feature,
Any A&D indicator or scale with or without the UFC feature can be used. The header/s and units can be removed if using a UFC model. If time and date are required, the Zebra printer with internal clock must be used.

ZEBRA PRINTER LABEL SAMPLES (UFC Indicators only)

All of the labels on this page are programmed and stored using UFC commands in the indicator. Labels showing time and date are output from the indicator with clock feature, If the indicator does not have an internal clock then the Zebra printer with internal clock must be used. (Refer to the previous page of samples).
